Profile

I come from a background in design, digital marketing and entrepreneurship - "I bring a multidisciplinary approach to solving problems". Passionate about building products that enhance the quality of people's lives. A highly motivated continuous worker and learner dedicated to progress, always picking up cutting edge tools and techniques.

Experience

Founder, Innogine

August 2015 - Present, Johannesburg

I got accepted into the MicroSoft BizSpark Program for Tech Entrepreneurs.

Was accepted into Seed Engines incubator run by the Gauteng Enterprise Propellor.

Learnt a lot about running a business and how to deal with clients and to ensure their satisfaction.

Digital marketing Specialist, Webgrowth Academy

November 2016 - May 2017, Cape Town

I helped launch the companies stand alone course.

I helped establish the ecommerce business.

I was invited to the IABSA Digital Summit as one of the 50 future digital leaders.

I managed to help growth hack the company to some of its successes.

Specialist Tutor, Teach Me 2

October 2012 - December 2015, Cape Town

I tutored Information Technology, Mathematics and Science to both High School students and University students.

I helped students build software projects, mainly matric students and 2nd year engineering students in University.

Intern Web Developer, Differentiated Business Solutions

August 2013 - November 2013, Johannesburg

I developed and designed sites for clients such as law firms.

I maintained multiple sites.

WordPress and Joomla development and design.
